Responsible for all audio during live shows, featuring guitar, vocals, piano, etc.

May 2018 - August 2018

Natick, MA

PROJECTS

Death By Dagger

github.com/andreweggleston/DeathByDagger

A fun game, updated for the electronic age. Made use of the **Slack API** to keep players updated on their status in the game. Created using **Go**, with data hosted on **PostgreSQL**.

Javascript Raytracing

github.com/andreweggleston/js-rtx

A small **p5.js** example created to demonstrate how raytracing can be used to make a depth effect when rendering images (as long as everything can be described as a straight line). Created during the design process of a two day hackathon.

Senior Assassin-Frontend

github.com/and rewegglest on/GoSenior Assass in Frontend

A web application developed to provide users with a way to interact with their Assassin Profile, hosted on **GoSeniorAssassin**. The app was built using **Node.js**, **Angular.js**, **HTML**, and **CSS**.

WHS Planner

github.com/s0urc3d3v3l0pm3nt/whs_planner

A client application developed to provide students with a simple schedule planner and organizer. The application features an intuitive calendar, an automatically updating schedule, and a live news feed. The app was created using **Java**, with **JavaFX** as a graphical framework.

OBJECTIVE

Seeking a co-op / internship opportunity in Summer and/or Fall of 2020.

EDUCATION

Rochester Institute of Technology

BS in Computer Science

May 2023

Worcester Polytechnic Institute

Fall 2019-Spring 2020

COURSEWORK

Operating Systems
Mechanics of Programming
Introduction to CS Theory
University Physics 1 & 2

SKILLS

Clearance Level - Secret

Languages

Go

Python
